**Email:** olasunkanmimunirat@gmail.com    **Address:** Brantford, Canada.    **Telephone:** +1-519-717-7309

**LinkedIn:** <https://www.linkedin.com/in/somoye-munirat-a5b642194/>    **GitHub:** <https://github.com/neeyrahh>

Versatile Web Developer and Software Tester experienced in building high-performance web applications and conducting end-to-end testing in agile teams. I am skilled in modern frontend frameworks (React, Tailwind CSS), test automation (Cypress), and cross-team collaboration. I am passionate about delivering reliable, scalable, and user-friendly software solutions with a strong commitment to quality assurance.

TECHNICAL SKILLS

**Languages:** HTML, CSS, JavaScript, PHP.  
**Frameworks:** React, Tailwind CSS, Node JS.  
**Tools:** Git, Cypress, Ant Design, MySQL, Jira  
**Testing:** Cypress, Functional & Non-Functional Testing, Unit Testing, Regression Testing  
**Concepts:** MVC, RESTful APIs, Agile, Responsive Design, SEO.

WORK EXPERIENCE

**FRONTEND DEVELOPER** **AUGUST,2023 – DECEMBER,2024**  
**LOGIKEEP AFRICA, LAGOS NIGERIA**

- Worked closely with product designers to integrate responsive web pages to enhance mobile user engagement
- Implemented key application functionality using the React Framework, reducing page load times and improved user experience.
- Integrated API endpoints, ensuring accurate and seamless data handling across the application, ensuring smooth data integration.
- Conducted full lifecycle testing (functional and non-functional) to verify application reliability, performance, and usability.

**FRONTEND DEVELOPER** **FEBRUARY,2023 – AUGUST,2023**  
**CHARISOL LIMITED, TEXAS USA**

- Developed a responsive and functional MailDrip web-based application using JavaScript and React.
- Collaborated with UI/UX designers and integrated accessibility features using Ant Design Framework.
- Conducted code reviews and resolved an average of 10+ bugs per sprint, significantly improving code quality and application performance.
- Worked with a cross-functional team on sprint tasks, contributing to faster product development cycle by ensuring alignment with the product strategy.
- Wrote comprehensive Cypress tests to verify critical aspects such as reliability and performance on MailDrip Features.
- Collaborated in agile sprints and presented bi-weekly progress reports to stakeholders.

**SOFTWARE DEVELOPER** **JANUARY,2022 - JANUARY,2023**  
**PAYSPRINT FINANCIAL LIMITED, LAGOS NIGERIA**

- Contributed to code reviews, debugging, and optimization, resolving bugs to improved system reliability.
- Conducted both functional, non-functional testing and regression testing to verify application reliability, performance, and usability, to ensure reduction in post-launch issues.
- Used JavaScript, Laravel, MySQL, and PHP to plan, test, and implement various web-based applications.
- Updated existing software to resolve errors and meet new performance requirements, ensuring compatibility with evolving technologies.

EDUCATION

Web Development, Conestoga College  
Brantford, Ontario, Canada | 2023 – 2024

B.Sc. Computer Science, Houdegbe North America University  
Benin Republic | 2017 – 2021
